## Papyrus Grande

# HYBRID! printing on both paper and fabric is possible

### Continuous mass-production of good-looking prints thanks to

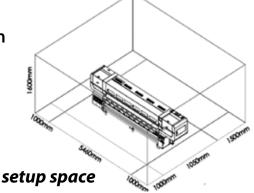

- 5kg / color ink supply system
- printing width of 3.3m (11 ft.)
- incredible speed of 96m2/h by 1200 dpi high resolution.

#### No cockling effect on your printed paper, thanks to:

- powerful 3-stage dryer
- pneumatically controlled dancing bars
- media feeding system equipped with automatic adjustment sensors

Very easy and quick to switch from transfer paper to DTF printing. No need to change inks!

Great solution for fashion, soft signage, home decoration and much more.
